The name film originates from the fact that photographic film also called film stock has historically been the medium for recording and displaying motion pictures. Many other terms exist for an individual motion-picture, including picture, picture show, moving picture, photoplay, and flick. The most common term in the United States is movie, while in Europe film is preferred. Common terms for the field in general include the big screen, the silver screen, the movies, and cinema the last of these is commonly used, as an overarching term, in scholarly texts and critical essays. In early years, the word sheet was sometimes used instead of screen. Film in general is not a good term to refer to a long standard commercial video production since it's ambiguous in general and therefore requires context for correct interpretation.

Preview Main article: Test screening A preview performance refers to a showing of a film to a select audience, usually for the purposes of corporate promotions, before the public film premiere itself. Previews are sometimes used to judge audience reaction, which if unexpectedly negative, may result in recutting or even refilming certain sections based on the audience response. One example of a film that was changed after a negative response from the test screening is 1982s First Blood. After the test audience responded very negatively to the death of protagonist John Rambo, a Vietnam veteran, at the end of the film, the company wrote and re-shot a new ending in which the character survives.<sup>11</sup>

Several Chinese and Hong Kong films have stopped production, including Blossoms, the upcoming film directed by Wong Kar-wai, which was scheduled to shoot in Shanghai<sup>162</sup> Jia Zhangke's next film, which was planning to begin filming in China in April, but has been put on hold until at least next spring, with Zhangke saying he might even rewrite the script<sup>162</sup>

and Polar Rescue, a Donnie Yen film, which shut down production until the end of the year.<sup>82</sup> One of the first big production shutdowns was that of Mission: Impossible 7, which was scheduled to begin filming in Venice, Italy when the crew was sent home and the sets left behind.<sup>6</sup> After actor Tom Hanks became infected with the coronavirus, the Elvis Presley biopic he was working on in Queensland, Australia was shut down, with everyone on the production put into quarantine. Production company Warner Bros. began working with the Australian public health services to identify other people who may have been in contact with Hanks and his wife Rita Wilson, who had been performing at venues including the Sydney Opera House shortly before both were tested positive.<sup>163</sup> The Marvel Studios film Shang-Chi and the Legend of the Ten Rings, which was also shooting in Australia, had its first unit production temporarily suspended on March 12, 2020, due to director Destin Daniel Cretton self-isolating while awaiting results for a coronavirus test, which came back negative.<sup>164</sup><sup>165</sup>
